Language: English Brand New Book ***** Print on Demand *****.Excerpt from **A Treatise on Marine Surveying: Prepared for the Use of Younger Naval Officers, With Question for Examination and Exercises, Principally From the Papers of the Royal Naval College, With the Results** The following **Treatise on Marine Surveying** and its connected subjects is intended to meet an Educational want which has existed for some time past. I mean a small Manual on the subject, arranged on a plan similar to that employed with success in Text-books of Elementary Science, and which combining a sufficient description of the Instruments used, and of the various methods pursued, with a careful selection of representative Examples, with their solutions, may, it is hoped, serve as a sufficient Introduction to this branch of Science for the use of Younger Naval Officers, and also, if it may be, to bring the subject, at least in its more popular features, before a wider circle than those professionally interested in it. A glance at the way in which the various subjects are treated, will shew that I have had no intention to write - or, if the word be preferred, to compile - a Hand-book for the use of the Practical Surveyor. Such an intention might fairly be regarded as an impertinence in one who has never been engaged in the practical work of the Profession, and who must therefore be ignorant of many details which of necessity enter largely into any book intended to serve that purpose. I have rather had the Examination-room and its requirements before me in selecting and arranging the materials of my little book.
