THE ZODIAC RULES: NEW EVIDENCE FOR THE VERACITY OF ANCIENT ASTROLOGY (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.A wide-ranging book for both astrology buffs and the curious. It makes a case for a return to the ancient sidereal zodiac developed in Babylonia and inherited by India. However, although the precession of the equinoxes was already known to the Greeks, they failed to understand the relation between it and the Eastern zodiac. The author, an academic, in this book attempts to verify the truth claims of astrology to the satisfaction of a modern rational mind. That the sidereal zodiac has deigned to respond to this investigator's pilot studies apparently shows both that the questions posed must be the right ones, and also that you cannot flog a dead horse and expect a response - as earlier investigators of the tropical zodiac repeatedly have. The zodiac hints at challenges faced by the journeying soul, but Western civilization has been hellbent on denying the true dignity of Man. Those in the habit of profiting on people weaker than themselves will not like the discoveries here presented. Theoretical, speculative as well as historical, the book even attempts to uncover a forgotten tradition about the evil star Algol, presumed to be a part of the astrological studies conducted by the original Palestinian Christians while still calling themselves the Children of Light. Certain passages might be a bit complex, but the reader will be fascinated to find out how the zodiac appears to encode an ancient psycho-cosmology known from Roman philosopher Plotinus and Hinduism alike. Contrasting with the denser sample horoscope pointers, lighter strokes are used when presenting certain less well understood astrological symbols. Did you know that the secret to the Water Bearer may not primarily...
