

In Pursuit of the Gene: From Darwin to DNA (Paperback)

By James Schwartz

HARVARD UNIVERSITY PRESS, United States, 2009. Paperback. Book Condition: New. 228 x 152 mm. Language: English . Brand New Book. The mystery of inheritance has captivated thinkers since antiquity, and the unlocking of this mystery - the development of classical genetics - is one of humanity's greatest achievements. This great scientific and human drama is the story told fully and for the first time in this book. Acclaimed science writer James Schwartz presents the history of genetics through the eyes of a dozen or so central players, beginning with Charles Darwin and ending with Nobel laureate Hermann J. Muller. In tracing the emerging idea of the gene, Schwartz deconstructs many often-told stories that were meant to reflect glory on the participants and finds that the official version of discovery often hides a far more complex and illuminating narrative. The discovery of the structure of DNA and the more recent advances in genome science represent the culmination of one hundred years of concentrated inquiry into the nature of the gene. Schwartz's multifaceted training as a mathematician, geneticist, and writer enables him to provide a remarkably lucid account of the development of the central ideas about heredity, and at the...
