Are these just the prelude to an unprecedented environmental disaster in our near future? Rapid changes in the atmosphere have set humanity on a dangerous course toward a catastrophic change in climate in the immediate future. It's not too late to change our ways. Publishers Weekly: The message is very scary and convincing: humankind has so polluted the environment that the world's weather is about to react by taking a "ferocious" turn. But the messengers delivering this news seem a bit flaky: Strieber wrote of his own alien abduction episode in Communion; Bell, a late-night radio talk-show host, regularly covers such topics as UFOs, government conspiracies and near-death experiences. They present an imagined sequence for the catastrophic "superstorm,"...
