

## Modern Java Web Development (Paperback)

---

By Vishal Layka

aPress, United States, 2014. Paperback. Book Condition: New. 2014 ed.. 234 x 188 mm. Language: English . Brand New Book. Web development is still one of today s most popular , active, and important programming and development activities. From a single web page to an e-commerce-enabled web site to a fully-fledged web application, the Java programming language and its frameworks allow you great flexibility and productivity for your web application development. Learn Java for Web Development teaches web developers who are new to Java key skills, Java-based languages, and frameworks to build simple or complex web sites and applications. As soon as you pick up this book, Vishal Layka s experience guides you on a very practical learning and building journey. You will learn the Java nuts and bolts necessary to build a simple HelloWorld Java (native) application, as well as a HelloWorld Java-based web application example that utilizes servlets and Java Server Pages (JSPs). Over the course of the book, you ll learn more about servlets and JSPs and delve into Java Server Faces (JSFs) and the expression language found in each of these by applying them in a real-world case study--a book store e-commerce application. Then you ll build...

### Reviews

*Very useful to any or all group of men and women. It is writter in basic words instead of difficult to understand. I realized this ebook from my i and dad recommended this publication to understand.*

**-- Althea Fahey MD**

*The ideal ebook i actually read through. It really is writter in simple words and phrases and not confusing. Its been written in an remarkably simple way and it is just after i finished reading this ebook where in fact modified me, affect the way i think.*

**-- Alice Cremin**
